(SLIC NO. 282, PCA NO. 16547)**

Dear Mr. Granade:

Los Angeles Regional Water Quality Control Board (Regional Board) staff have reviewed the Form 200, "Report of Waste Discharge", for the injection of a lactate/emulsified soybean oil solution into groundwater for an enhanced in-situ bioremediation pilot at Installation Restoration Site 24. The area includes buildings 335, 336, 350, 352, 354, 354A, 356, 382, 383, 383A, 384, and 394. The form was received on April 4, 2006. The work plan for this project, dated April 2006, was approved in a Regional Board letter dated April 12, 2005. This letter is to inform you that the Form 200 is considered complete.

If you have questions related to this project, I can be contacted at (213) 576-6724 or via email at praftery@waterboards.ca.gov.

Sincerely,
